

The Faculty of Biology and Medicine of the University of Lausanne ([FBM](#)) and the University Hospital of Lausanne ([CHUV](#)) invite applications for a position of:

**Associate Professor
within the Human Immunology Center of Lausanne (CHIL)**

Starting date: to be agreed

Place: Lausanne, Switzerland

The appointee will conduct research in immunology and oncology and specialize in one of the following areas: B-cell immunology antibodies, regulatory T cells. It will demonstrate a high level of commitment to research and independent scientific productivity.

Applicants must be recognized in the field of immunology, with a well-established research program and proven teaching skills; commitment to pre-graduate, postgraduate and continuing education will be required.

The incumbent will independently develop and implement novel approaches, procedures and techniques for B-cell characterization and antibody response and/or regulatory T cells. She/he will manage the laboratory, will be responsible for monitoring compliance with safety rules and quality controls. She/he will supervise staff, post-docs and doctoral students, and will lead the writing and publication of manuscripts and technical reports. As principal investigator and/or co-principal investigator, she/he will submit grant applications and manage the funds obtained.

Requirements :

At least :

- PhD or MD/PhD ;
- expertise in immunology ;
- excellent knowledge of English and demonstrated ability to write scientific papers;
- numerous publications as first or last author;
- skills in organization, interdisciplinary collaboration and networking as well as in human resources management.

Preferably:

- expertise in one or more of the following areas: B cells and antibodies; regulatory T cells; inflammatory systemic diseases; vaccinology, infectious diseases and oncology ;
- interest in the interface between basic research and translational medicine.

Further information may be obtained from Prof. Giuseppe Pantaleo (giuseppe.pantaleo@chuv.ch), Head of the Service of immunology.

Applications must be formulated in English and should include the motivation letter, the curriculum vitae, the list of publications with a copy of the five most relevant ones, the list of external funding obtained, a brief description of the research program and of teaching experience and a copy of diplomas. They should be submitted online by **November 5th 2019 (23:59 GMT+1)** to wwwfbm.unil.ch/releve/application/ as a single PDF file.

The job description is available on [the same link](#) (or QR code).

We offer a pleasant working atmosphere in a multicultural, diverse and dynamic academic environment. There are possibilities for continuing professional education and a multitude of activities and other benefits to discover.

Seeking to promote an equitable representation of woman and men among their staff, the University encourages applications from women.
