

THE 6 CARDINAL POINTS OF RESEARCH SERVICES AT HEC LAUSANNE

The fundamentals for our new researchers

1 FUNDING

[SNSF](#) represents a very interesting funding organization with a success rate of [36,5%](#) (category Human & Social Sciences, in 2022) compared to its equivalents in the USA (NSF/SBE, [23%, 2023](#)) and the UK (UKRI/ESRC, [29%, 2022-2023](#)). **UNIL** also provides a large range of funding support services - browse all of them [here](#)! For support in proposal elaboration for EU funding programs, click [here](#)!

Additionally, the **HEC Research Office** keeps the Faculty's researchers up to date with new funding programs, notification of deadlines for calls for proposals and the latest innovations in HEC & UNIL research services.

2 DATA: SOURCES, SERVERS AND MANAGEMENT

Several financial and economic **databases** are made available by the [CEDIF](#) to our researchers and students.

To **store** your research data safely, or for HPC programming support, the [DCSR](#) is at your service!

When it comes to data management, an effective **Data Management Plan (DMP)** can help you save time and anticipate issues. Find DMP templates and other useful support for data management [here](#)!

3 PUBLICATIONS

[SERVAL](#) is the official repository to which UNIL researchers upload their publications and notices, either in private or Open Access mode.

For detailed practical info, the [Infoserval website](#) is for you!

4 LABORATORY FOR BEHAVIORAL EXPERIMENTS

With its excellent infrastructure consisting of eight laboratories, LABEX is the behavioral research laboratory of our Faculty. Find out more on the [LABEX website](#)!

5 LEGAL REVIEW FOR RESEARCH CONTRACTS

Got a contract regarding research activities? Congratulations! Prior to your signature, the contract has to be submitted to the [PACTT office](#) for their legal review. Their experts will ensure compliance with legal and ethical principles, such as intellectual property.

6 COPY-EDITING AND STATISTICS CONSULTING

Our Faculty offers a **copy-editing** service to all HEC researchers. To benefit from this service, please address your request to Vincent Vandersluis by email, at Vincent.Vandersluis@unil.ch.

A **Statistics Consulting Service** is also offered to all researchers who would like to receive feedback on their research project from a researcher who is specialized in advanced statistics. For more info, click [here](#)!
