

# Master of Science in Medical Biology Examination programme 2023-2024

**MODULE 1** 

Theoretical part

Final mean: Average weighted by coefficients of the grades for all the courses

**MODULE 2** 

**Practical part: First Step Project** 

Final mean: Arithmetic average of the grades for the practical assessments

Success conditions for modules 1 and 2

- Module 1 : final mean ≥ 4,0

and

- Module 2: final mean ≥ 4,0 and no more than one grade under 4,0

## **MODULE 3**

# Choice of one field of specialisation among the four proposed:

- Immunology and Cancer
- Metabolism and Human Health
- Neuroscience
- Pharmacology and Toxicology

#### Theoretical part

Final mean: Arithmetic average of the theoritical course assessment grades

## **Practical part**

Final mean: Arithmetic average of the practical course assessment grades

#### Success conditions for module 3

Theoretical and practical final mean ≥ 4,0

## **MODULE 4**

#### **Master Thesis**

Written report / oral defence / practical research work

# Success conditions for module 4

Arithmetic average of three grades on the Master Thesis ≥ 4,0

According to the "Règlement d'études de la Maîtrise universitaire ès Sciences en biologie médicale approuvé par la Direction de l'UNIL le 29 juin 2021".
